Jin Shin Jyutsu®

Physio-Philosophy

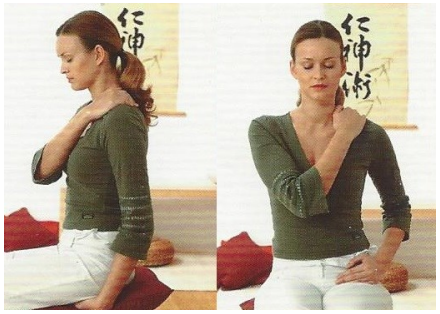
5 Day Basic Seminar

San Antonio, Texas

April 1—5, 2020

JIN SHIN JYUTSU®
PHYSIO-PHILOSOPHY

Jin Shin Jyutsu is a healing art from ancient Japanese tradition. It brings balance to the body's energies, allowing the body to function better, feel better, and heal more quickly. Jin Shin Jyutsu is a helpful adjunct to western medicine, inducing relaxation and reducing the effects of stress.



Jin Shin Jyutsu employs twenty-six energy locks on the body. When one or more of the pathways between these energy locks becomes blocked, stagnation occurs, the flow becomes disrupted, and disharmonization results. When we hold these locks in combination we can feed life into our body and restore energetic balance physically, mentally, emotionally, and spiritually. Learning Jin Shin Jyutsu engages us in self study. In the process of "know myself" one can learn from the body about tension and imbalances, and begin to understand and use the process to abundant health.

ABOUT THE INSTRUCTOR

Wayne Hackett was born and raised in California. He attended Abilene Christian University where received BS degree in education specializing in secondary education and the sciences. In Texas he worked in both state and private institutions as a teacher and counselor. In 1972 he moved to Boulder, Colorado, where his interest turned to holistic health and education. The study of structural integration with Ida Rolf shaped and focused much of his early orientation. In 1977 Wayne met Mary Burmeister, and she has been his teacher and inspiration to this day. Wayne currently makes his home on the island of Kauai in Hawaii where he maintains a private practice and continues his study of Jin Shin Jyutsu. Wayne travels extensively presenting Jin Shin Jyutsu lectures in the United States and throughout the world. He has a particular fascination with the esoteric significance of symbols (numbers) and cosmic geometry (planetary relationships).
