

Harmonize life energy  
Relax the body  
Refresh the spirit

Through the quiet application  
of hands

# Jin Shin Jyutsu® 5-Day Basic Seminar

**Nashville, TN**

**July 11-15, 2019**

**Thursday - Monday**

**with Jill Marie Pasquinelli**

## *Jin Shin Jyutsu Physio-Philosophy*

is an art rooted in ancient principles for harmonizing life energy of the body. Through its sequences of gentle touch on specific areas, called Safety Energy Locks, it can help to balance body, mind and spirit.

Appropriate for people of all ages and states of health, it can be applied by a practitioner or used as self-help. Many clinics now teach and provide Jin Shin Jyutsu as complementary care, including UCSF Osher Center for Integrative Medicine.

**Jiro Murai** researched and developed this art in the early 1900s. After restoring his health from a terminal illness at age 26, Jiro devoted his life to studying and understanding the process that helped him. He passed his knowledge of Jin Shin Jyutsu on to **Mary Burmeister**, who brought it to the United States in the 1950s.

**Jill Marie Pasquinelli** has been a student and practitioner since she began her studies with Mary Burmeister in 1982. She joined the faculty in 2002 and has been teaching 5-Day classes, Special Topics, mentoring and self-help classes worldwide.

Jill was born and raised in San Francisco, California. Her original studies of human biology and animal behavior were later augmented by her passion in dance and theater arts. She graduated with a BA in Dance from Lone Mountain College.

Jill's other studies of meditation, Tarot, writing and various other body & movement awareness disciplines combined with her childhood dream of becoming a detective lead her to the discovery of Jin Shin Jyutsu.

The experience of living through a life threatening illness twenty years ago led Jill to bring Jin Shin Jyutsu into a medical oncology practice. There she developed an integrative oncology program and treated patients in that setting for over eight years. This along with her own experience has given her a deeper understanding of the Art, both as a receiver and one who shares it through being in service to others.

Jill Marie Pasquinelli brings enhanced awareness and curiosity into her teaching, sharing with students her delight in the Mysteries and discoveries of life, movement and energy. She has a particular interest in living life in accordance with nature, exploring life cycles and patterns that reside in both the Universe and in our bodies.
